

EXPLORER KIT

Want to be part of the Go Jetter Academy?
You can with your very own Explorer Kit!

Step by step we'll show you how to
make one from a humble cardboard box.

1

Gather your supplies.

You will need:

- An A4 sized box with a lid
- Coloured card (orange, white and blue)
- ballpoint pen and pencil
- paper glue
- scissors
- clear acetate
- sticky tape
- ribbon or cord
- strong craft glue

2

Begin by gluing white card to the lid of the box, covering about two thirds of the box.

3

Print off all the templates provided and cut out the two larger shapes first. Glue them together along the glue tab.

4

Place your template down on blue card. Trace along the edges with a pen or pencil. Gently score along the dashed line with the ballpoint pen, being carefully not to tear through. Then cut the shape out with the scissors.

EXPLORER KIT

Step By Step - we'll show you how

5

Fold up the sides and base along the scored lines.

6

Then glue the blue card on to the lid.

7

Cut out all the remaining details for your Explorer Kit from the third template page.

8

Place the arrowhead shape on the orange card. Trace around the shape using a pen or pencil, then carefully cut out the shape using a scissors.

9

Place the orange shape on the white side of the lid and trace the inside of the shape. Using a craft knife carefully cut out the shape.

10

Flip the lid over and tape a piece of acetate to the inside of the opening.

EXPLORER KIT

Step By Step - we'll show you how

Decorate the lid of your adventurer box with all the template stars and turbines.

Optional

To add more detail to your Vroomster box, cut some hexagons and other shapes out of blue card and glue them to the lid.

Finally glue a length of ribbon to the lid to make a carrying handle..... and you're ready to go.

You "Aced It!" - as Kyan says

Each month we will show you how to create your own explorer tools to keep in your kit so you can be like Kyan, Xuli, Lars and Foz!

You'll need binoculars for your adventures, see how easy they are make [here](#).
